Re: Dockets OST-2020-0041/42
Applications of Global Crossing Airlines, Inc.

Dear all:

By Order 2021-8-3, the Department awarded Global Crossing Airlines, Inc. ("GlobalX")¹ a certificate of public convenience and necessity authorizing it to engage in foreign charter air transportation of persons, property, and mail; the certificate is now in the presidential review process. Under condition (1) of the certificate, this authority does not become effective until six business days after the Department receives the carrier's operations specifications, insurance certificate, fitness update, and a confirmation that the carrier continues to meet the Department's financial fitness test.

On August 4 GlobalX submitted the material described above in connection with its request for effective interstate authority, which was granted on August 6. GlobalX now requests effective foreign certificate authority and confirms that the information provided in the August 4 request remains accurate; that is, there have been no material changes at the carrier, and it continues to meet the financial fitness test.

1 By letter dated July 30, 2021, the carrier requested that the Department also register "GlobalX" as a trade name. GlobalX would appreciate if the certificates reissued to reflect effective authority include this trade name.

GlobalX respectfully requests a waiver of the standard six-day waiting period so that it can receive an effective certificate and begin foreign operations as expeditiously as possible.

Please feel free to contact me with any further questions you may have.

Respectfully submitted,
